

We want to make ordering Meals on Wheels easier for you so we have added an online ordering option from MobiDines! You can now order from your computer, your tablet or even your Smartphone. In the near future, we may even add a downloadable app for your iPhone or Android devices.

The process is easy but may take a little getting used to. It's very similar to our ordering forms, simply follow these four easy steps:

1. Click the Order Now button and select a meal category (they are the same as our printed menu)
2. Select the items you want, specify the quantity of each and add them to your order
3. Select "Delivery", enter your delivery information (when you have added this once, each cell will remember what you have entered before when you click on it)
4. Select 'Bill My Account' as your method of payment and enter your account number or name (if you don't know your account number), Chats will use this to identify who pays for your meals. Hit submit and you are done! You will receive an email confirmation of your order and your Meals will be delivered on your regular day, at your regular time!
