

Home at Last (HAL)

Service Description: Home at Last provides a safe and smooth transition from hospital to home for older adults and persons with special needs. The program provides reliable and comfortable transportation and helps persons served remain safe and comfortable at home by remaining with the client until they are settled. The services on the way home may include picking up prescriptions, essential groceries, small medical equipment or supplies, as needed. In addition, a follow-up call is made within 5 business days to review services and provide coordination/linkages to community support services.

Service Provider(s): Personal Support Workers

Persons Served: Older adults, persons with age related conditions and persons with special needs requiring transportation and settle in support following an inpatient admission or emergency room visit.
